

## **Junior Electrical Engineer (Norfolk, VA)**

Abbott On Call is looking for intelligent, driven, and energetic engineers for open positions in Norfolk, VA. Our Systems Engineering firm is a leader in engineering, modular ship design, development, test and validation, and interface verification and validation.

Applicants must have the following:

- Bachelor's level degree in Electrical/Electronic Engineering

Electrical and electronics engineers design, develop, test, and supervise the manufacturing of electrical and electronic equipment, including broadcast and communications systems, electric motors, machinery controls, lighting, and wiring in buildings, automobiles, aircraft, radar and navigation systems, and transmission devices used by electric utilities. Electrical and electronics engineers work closely with computers.

Electrical and electronics engineers specialize in different areas such as power generation, transmission, distribution, communications, and electrical equipment manufacturing. Electrical and electronics engineers design new products, write performance requirements, and develop maintenance schedules. They also test equipment, solve operating problems, and estimate the time and cost of engineering projects.

Abbott On Call is proud to offer highly competitive salaries, a flexible work environment, and invaluable firsthand experience delivering mission-critical solutions for our customers. Our employees are our greatest asset, and our competitive benefit options are designed to support and protect our employees and their families.
